ABOUT US

We're experts in ephemeral architecture and commercial interior design as a company motivated by innovation and excellence with immense creative and production capacity. It was founded in 1988 to serve businesses in the ceramics sector. After 30 years of experience and now with nearly fifty employees, we continue evolving and expanding our resources and services.

We currently have extensive experience in display systems as a leader in the Ephemeral Architecture and Commercial Interior Design sector. The company facilities, where each project is managed and coordinated, occupy more than 4,000 m².

We're an honest team that is committed to our profession. We are passionate about our work and it motivates us to be a part of a team that always seeks the best solution.

SERVICIOS

Desde Expositores Alcora llevamos a cabo todas las tareas requeridas para la promoción de sus productos. Somos expertos en la fabricación de sistemas expositivos, con el valor añadido de poder adaptar cada producto a sus necesidades.

Pero nuestro trabajo no acaba aquí, conscientes de que la mejor presentación de los productos se realizan en las propias instalaciones de las empresas, ya sea en las exposiciones o en los stands, desarrollamos y ejecutamos proyectos integrales para cada cliente.

Nuestros proyectos son minuciosos, en los cuales pretendemos cuidar al máximo los espacios, siguiendo criterios estéticos actuales, pero sin quitar protagonismo a los productos expuestos. Contamos con un equipo de diseño propio que le ayudará a tener una visión global del proyecto mediante la ejecución de planos detallados y vistas virtuales. Finalmente nuestro equipo profesional realiza el proceso de fabricación y montaje, siempre bajo la supervisión de un responsable que se ocupará de que el proyecto se haga realidad según los terminos establecidos previamente en el diseño.

In Expositores Alcora we carry out all necessary tasks required for promoting our products. We are experts in the exhibiting systems manufacture, with the added value of the possibility of producing custom made products.

But this is not all, we also understand that the best product presentations are accomplished in the own facilities of the companies, in their showrooms and their fair stands, so we develop and realize comprehensive tailor made projects for each customer.

Our projects are very detailed, paying special attention to the spaces, following the last aesthetic tendencies and keeping the focus on the displayed products. Our own design team will help you getting a global picture of the projects by making detailed plans and 3D presentations. Finally, our experienced professional team manufactures and assemble, always under the surveillance of a foreman who will make sure the project becomes true according to previously designed features.
